KYRGYZ REPUBLIC

Kyrgyz Republic - Switzerland of Central Asia "It reminds me of our own Kashmir" Late Mr. Rajiv Gandhi when he visited Bishkek. The land of snow covered mountains, lakes, valleys and desert to suit all the aspirants.

Kyrgyz republic is located in the very heart of Central Asia on the Great Silk Road and has been praised by many poets and philosophers of the East. This area of the world is fast becoming a prime tourist destination. Kyrgyz republic has the population of 5 million people representing more than 80 ethnic communities living in peace and international concord. In general the Kyrgyz are warm, sensitive and friendly people. The features of the Kyrgyz culture are tolerance, hospitality, open mindedness and flexibility.

Kyrgyz Republic is a land of mountains, rivers and forests. So trekking, mountaineering, white-water rafting, pony trekking, mountain biking and even heli-skiing are common activities in this country. Issyk Kul is, by far, the most popular tourist attraction, also known as "The Jewel" of Central Asia. Issyk-Kul means "hot lake" in Kyrgyz and confirms its name by not freezing in winter. It is second largest alpine lake in the world.

India and Kyrgyzstan

Political ties with the Kyrgyz Republic have been traditionally warm and friendly. Kyrgyzstan also supports India's bid for permanent seat at the United Nations Security Council and India's role in the Shanghai Cooperation Organization (SCO).

Historically, India has had close contacts with Central Asia, especially countries which were part of the Ancient Silk Route, including Kyrgyzstan.

It is only 3 hour journey from Delhi to Kyrgyzstan.

ASIAN MEDICAL INSTITUTE

Asian medical institute is the leading higher medical institution of the Kyrgyz Republic. Asian Medical Institute was established with the official license by the Ministry of education and ministry of health of Kyrgyz Republic as Registration number I-184. ASMI is enlisted in world directory of medical schools published by WHO.

Asian Medical Institute offers general medicine faculty in a variety of active learning environments including small group session, problem sets and resources hours, journal article discussion debates, video conference session and grand rounds presentation. This program is taught according to the medical system of European universities which enables our students to migrate during and year of course of getting a job in any part of Europe upon completion of course.

Asian Medical Institute is aimed to teach medical education for foreign citizens entirely in English Language, that's why the selection of faculty has been made on the basis of highly English speaking doctors from different countries that meet the educational requirements of students from any country according to their choice knowledge.

At Asian Medical Institute, you'll benefit from a Medicine Faculty with impeccable credentials as physicians, teachers and researchers. Every member of faculty holds an M.D. and/or Ph.D. degree.

Many are also certified in their specialties. The faculty staff uses modern teaching technologies. Their teaching method is based on interactive and critical thinking activities that help the students to learn successfully and achieve good results. Combination of utilization of modern training programs, technical material base, new training technologies and qualified teachers promotes the improvement of training quality.

Our teaching staff is friendly, hospitable, positive, helpful and generally eager to speak with any foreigner. On contract basis every year ASMI also invites the special team of doctors from USA, UK and Europe to deliver lectures and research medical education.

INTRODUCTION

The Medical Council of India, Nepal, Bangladesh, Pakistan, UK , USA and others recognize the degree of ASMI. Asian Medical Institute is recognized by more organizations than any other medical institute of Kyrgyz Republic.

Asian Medical Institute is actively working to make new contacts with the medical universities of USA, UK, Europe and others. According to WHO experts, Kyrgyzstan has achieved a lot more in the field of health care system as opposed to its counterparts.
